Your School

School Chartered is a comprehensive web-based School Automation and Management Software which has been designed and tailored specially for educational institutes to assure smooth administration and management of various scholastic and non-scholastic activities. School Chartered ensures better interaction between students, teachers, parents & school management committee. School Chartered takes care of overall school administration and school management, helping the top school management to make effective managerial decisions leading to better management of resources available in the school. It helps school management to manage their academic processes and administrations with greater flexibility.

Our system bridges the gap between the investors and the school. The school maintains a good repo with the investors thus maintaining the substantial inflow of funds along with the basic goal of educating the students.

Being a web application it can be accessed from anywhere on any computer at anytime. It doesn't require any fixed installation or infrastructural investment and technical expertise.
